TENDERS FOR PAIAI OR HARD POI.

Office of the Board of Health, Honolulu, May 20, 1901.

Sealed tenders for supplying the Lep-er Settlement with Paiai or Hard Poi, will be received at this office until 12 o'clock noon, Friday, May 31st, 1901.

The Paiai to be freshly made and securely packed in flour bags and delivered in good condition at the Kalaupapa landing in quantities ordered by the superintendent, averaging 400 bundles per week.

The bundles of Paiai to be of two sizes, one to weigh twenty-one pounds net, and the other size to weigh twenty-five pounds net. Bids for supplying for respective terms of two (2) years; four (4) years; six (6) years, and eight (8) years are specially invited. Supply to begin within thirty days after signing of the contract.

The contractor must file a bond with approved sureties in the sum of not less than one thousand dollars (\$1,000), conditioned for the faithful performance of the contract.

The bids should be endorsed "Tender for Paiai." The Board of Health does not bind itself to accept the lowest or any bid.

By order of the Board of Health, CHAS. WILCOX, Secretary.

I, Theodore F. Lansing, Treasurer of the Territory of Hawaii, do hereby certify, in accordance with the requirements of Section 12, Chapter XXIII, of the Session Laws of 1894, the same being an "Act to provide for the Incorporation of Banking Companies," that have examined into the condition of "THE FIRST BANK OF HILO, LTD.," a corporation formed under said act and located in the city of Hilo, Island of Hawaii, and I am satisfied that the said corporation has fully complied with the provisions required by said act, to be complied with before commencing the business of banking, and the said corporation, "THE FIRST BANK OF HILO, LTD.," is hereby authorized to commence such business. In witness whereof, I have hereunto signed my hand and the seal of the Treasurer's office this 26th day of March, A. D. 1901.

THEO. F. LANSING, Treasurer Territory of Hawaii.

Tam Pong Groceries and Provisions

MEALS SERVED AT ALL HOURS. Fresh California Fruits Always on Hand. Opposite Honolulu Brewery, Queen St.

NEW PUNAHOU PREPARATORY SCHOOL.

THE above cut is a reproduction of the proposed Punahou Preparatory School, which is to be erected on the Oahu College grounds opposite Pauahi Hall. The plans for the building were drawn by the well-known firm of Dickey & Newcomb, architects, and are of a Northern Italian architectural design.

The building is to be two stories high with a basement. It will have a frontage of 144 feet by 82 feet depth. In the basement there will be three large rooms devoted to chemistry, domestic science and a kitchen, besides a boys' toilet room and bicycle stalls.

Entrance to the first story is effected by a porch fourteen feet by fifty-two feet. On this floor there will be located the superintendent's office, library, girls' toilet, coat rooms and four large class rooms.

The class rooms are each twenty-six feet nine inches long by forty feet six inches wide, and are so arranged that, by the use of sliding partitions, they can be divided off into rooms twenty feet by twenty-six feet nine inches.

This arrangement of the class rooms is intended to do away with overcrowding. If, in the future, the rooms should become overcrowded, which would naturally cause a great deal of inattention on the part of the pupils to their studies, two rooms can be made of the one, thus relieving the strain on the teachers. It will, of course, necessitate the employment of additional teachers.

Mr. Newcomb, the architect, said in regard to this arrangement, that although quite extensively used in some parts of Europe, the idea is a new one, as far as the United States is concerned, and Honolulu will have the distinction of being the first to introduce the plan into American territory.

The second floor will also have four class rooms similarly arranged as those on the lower floor. On this floor the auditorium will be situated, the dimensions of which will be fifty feet by seventy feet. It will have a seating capacity of between 600 and 700 persons. It also will contain a spacious stage, ante rooms and a gallery.

In the front of the hall, there will be a loggia, over the entrance part of the building, ten feet wide by fifty feet long, with glazed doors opening from the auditorium, thus making a fine promenade. The roof will be made of copper.

The building is to be built of concrete, and is to have all modern conveniences, and as soon as the plans are finished, which will be in a day or two, building operations will commence at once.

NEWS NOTES OF ISLE OF MAUI

The Return of Charles Lennox—Japanese Beetles Working—Personal Notes.

Following are extracts from the Maui News:

Charles Lennox of Kahului returned to Honolulu on the Sierra, and to Kahului on the Claudine this week, making the entire distance from San Francisco to Kahului inside of six days.

Mr. Lennox visited Victoria, Tacoma, Seattle, Portland and San Francisco, and reports that times are very prosperous in all the cities which he visited, but that Seattle, where he remained longest, bids fair in the future

to become a formidable rival of San Francisco.

Eastern and European manufacturers are looking for openings on the Pacific Coast, and the indications are that the bulk of the manufacturing interests of the United States will soon shift to the coast to meet Oriental trade. Seattle and Tacoma at present have the advantage in the matter of establishing manufacturing, but if the promise of large oil developments in California are realized, thus giving California a cheap and abundant supply of fuel for manufacturing purposes, many new manufactures will be established in San Francisco.

A labor strike on a gigantic scale was developing in San Francisco at the time the Sierra sailed, but by mutual consent was put off until after the visit of President McKinley. Then trouble is expected.

MISCELLANEOUS.

Attorney George Hons returned from Honolulu on Tuesday night's Mauna Loa.

United States District Attorney Baird of Honolulu came over on Thursday's Claudine, and is a guest of the Maui Hotel.

Manager W. E. Bellina of the Kahikini ranch is enjoying the hospitality of Manager Field of the "Maui" for a few days.

Frank Summerfield, formerly a luna at Walluku plantation, has returned to Walluku, and as his former services were very much appreciated, he will probably be offered another position here.

P. H. Burnette, secretary of the Hawaiian Realty and Maturity Company of Honolulu, is visiting Maui this week, accompanied by his wife, partly to enjoy the varied beauties of Maui scenery and partly to do a little business for his company.

Japanese beetles are becoming very destructive in Makawao, attacking even the fruit trees, and efforts are being made to procure inoculated earth from Honolulu in order to combat them. It will take a combined effort of the residents of Makawao to properly spread the beetle-destroying fungus.
